Complaint of Power Failure

Dear sir,

This is a matter of great concern that our locality is severely getting affected by frequent power cuts in the recent month. Because of all this, very tragic effects can be noticed on the health, mental stability, and study habits of our children. Every family member in the family is facing problems. Aged are unable to get the rest and relaxation they require. It is difficult to bathe without a geyser in such cold weather. Kitchen work and other chores of our mothers are getting disrupted as well. The conditions are indescribable. I thank you in anticipation and expect the condition to improve soon in near future.

Thank you

Yours faithfully

Abhishek
